

# PERFORMANCE IN OVERDRIVE

DARKER. CLEARER. FASTER.

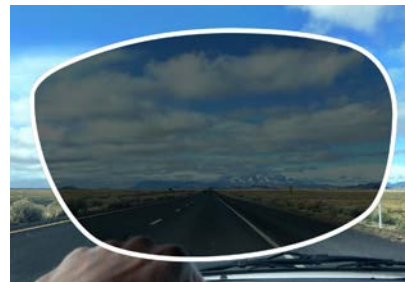

**sunsync**  
Drive XT

SunSync® Drive XT is an extra-active, light-reactive lens that gets darker, stays dark behind the wheel, and outperforms conventional photochromic options.

- Fast activation and fade-back speed
- Extra dark outdoor color
- Excellent in-car color retention
- 100% UV protection
- “Always-on” blue light reduction
- Enhanced indoor clarity
- Outstanding glare reduction
- Exceptional durability

Traditional Photochromic  
(Responds to UV light only)

SunSync Drive XT  
(Responds to UV and visible light)
